

MBUSD GATE
Fifth Grade After School Program
An
Inquiry-Based Curriculum
which...

- **Builds upon students' curiosity about the natural world**
- **Demonstrates how to look for patterns and correlations**
- **Emphasizes a transfer of knowledge between content areas**
- **Guides students' toward experimental design and application**
- **Guides students' to pose questions**
- **Integrates into existing curriculum and addresses grade appropriate learning standards**
- **Provides an avenue for intellectual peer group relations and discussions**
- **Provides relevant connections to "real" life problems and data**

Fifth Grade Curriculum

Some of these themes may change based on the students' interests.
