CONSENT FOR THE CALIFORNIA HEALTHY KIDS SURVEY 2022-2023 SCHOOL YEAR

Dear Parent or Guardian,

Your sixth-grade child is being asked to be a part of our school's Healthy Kids Survey sponsored by the California Department of Education. This important survey provides us with valuable information on our continual efforts to provide safe and drug-free, positive learning environments for MBUSD students. We value opportunities for meaningful student feedback and involvement. Research has shown that healthy students learn better. Developing schools that are drug-free, safe havens for positive youth development is central to our school's missions and ability to teach. Research studies and reviews over the past decade have consistently concluded that student health status and achievement are inextricably intertwined. *However, your child does not have to take the survey. Participation is voluntary and requires your permission.* Please see below for the sixth grade [CHKS Parent Consent Form](#).

Survey Content. The survey gathers information on behaviors such as physical activity and nutritional habits; drug awareness; school safety; and environmental and individual strengths and assets. The Healthy Kids Survey, along with more detailed information, is available to view at our [district's website](#) under the "Student Services Department" tab.

Administration. The survey will be administered this winter. It will take about 30 minutes to complete and will be administered by one of your child's teachers.

Participation is Voluntary and Anonymous. Your child does not have to take the survey. No names or any other identifying information is connected to the answers except for the name of the school. Students who agree to participate with parent or guardian permission only have to answer the questions they want to answer, and they may stop taking the survey at any time.

Potential Risks. There are no known risks of physical harm to your child. Risks of psychological or social harm are very small. None have been reported in MBUSD during the 17+ years of survey administration. In rare instances, some questions might make students feel uncomfortable. As always, the school's staff and counseling services are available to further support students and families with any questions and needs.

For Further Information. The survey was developed by WestEd, a public, non-profit educational institution for the California Department of Education. If you have any questions about this survey, please call Kerry Riccio Aguero, Director of Student Services, at (310) 318-7345, x5989 or visit the Health Kids Survey webpage on the district website.

[CHKS Parent Consent Form – 6th Grade](#)

Use the link above to indicate whether or not you grant permission for your sixth-grade child(ren) to participate in the California Healthy Kids Survey. **This consent form is due by Wednesday, January 25th.**

THANK YOU FOR COMPLETING THIS CONSENT FORM!
