New Elementary Student Enrollment/Registration **2022-2023**

Welcome to the MBUSD family! We are thrilled to be your partners as your child embarks upon what will be a rich and exciting educational and developmental experience in one of our prestigious schools. We want to help make the first steps in this process as easy as possible, and so we are providing the following step-by-step information about how to get started.

1. On or after January 31, 2022, bring your completed Pre-Enrollment Information Form as well as all required documents to your elementary school of residence (located by going to the District's website at www.mbusd.org, clicking on the "Parents" tab, and selecting "School Boundaries"). Details about these requirements can be found by going to the District's website, clicking on the "Enrollment" link at the top of the page, and clicking on the "New Elementary Student Enrollment and Registration Flyer" link.
2. On or after February 7, 2022, complete the online enrollment and registration form. This form can be found by going to the District's website at www.mbusd.org, clicking on the "Enrollment" link at the top of the page, and clicking on the "Online Enrollment" link. Please be prepared to complete information regarding but not limited to, emergency contacts, allergies, etc. It is important that the information submitted be accurate and complete, as this data will be uploaded into our Student Information System and will become part of your child's permanent record.

Please note: You must complete both Step 1 and Step 2 above to officially place your student on the pre-enrollment list to be considered for 2022-2023 school year placement. *Students are not guaranteed placement at their neighborhood elementary school and are placed based on space availability and consideration of a number of factors, including enrollment of siblings, prior placement history, registration date, etc.*

3. Once you have completed the online enrollment form, please print two (2) copies of the Verification Page, sign, and return one copy to your home school.
4. Watch for an email in late June or July confirming your child's school placement and informing you about additional online forms and documentation that need to be completed before the first day of school.

Thank you very much! We look forward to having your child join us in the 2022-2023 school year!

Class Assignment

The Governing Board believes students should be assigned to classes and/or grouped in a manner that provides the most effective learning environment for all students.

When assigning students to specific classes, the principal or designee may consider the following criteria as appropriate for the grade level and course:

1. Staff recommendation, including, but not limited to, the recommendations of teachers and counselors
2. Skills and classroom management style of individual teachers
3. Student skill level as indicated by multiple objective academic measures, such as student assessment results, grade point average, and grades in prerequisite courses

(cf. 5121 - Grades/Evaluation of Student Achievement)

(cf. 6152.1 - Placement in Mathematics Courses)

(cf. 6162.5 - Student Assessment)

(cf. 6162.51 - State Academic Achievement Tests)

4. Balance of high, medium, and low academic achievers
5. Student interests, readiness, behavior, and motivation
6. Student/teacher ratios and, if relevant, class size reduction considerations

(cf. 6151 - Class Size)

The principal or designee may accept from parents/guardians any information which would be helpful in making placement decisions. However, a parent/guardian who provides such information shall be informed that a request for a specific teacher shall be one of many factors which may be taken into account when determining his/her child's placement.

During the school year, the principal or designee may make any adjustments in class placement which he/she considers beneficial to the student or the educational program.

Additional Requirements for Grades 9-12

Class Assignment

Except for a student enrolled in an alternative school, community day school, continuation high school, or opportunity school, or as otherwise specified below, no student enrolled in grades 9-12 shall be assigned:

1. To any course without educational content for more than one week in any semester, including any of the following situations: (Education Code 51228.1)

a. The student is sent home or released from campus before the conclusion of the designated school day.

b. The student is assigned to a service, instructional work experience, or other course in which he/she is assigned to assist a certificated employee, but is not expected to complete curricular assignments, in a course the certificated employee is teaching during that period and where the ratio of certificated employees to students assigned to the course for curricular purposes is less than one to one.

c. The student is not assigned to any course for the relevant course period.

2. To a course that he/she has previously completed and received a grade determined by the district to be sufficient to satisfy minimum high school graduation requirements and the requirements and prerequisites for admission to California public postsecondary institutions, unless the course has been designed to be taken more than once because students are exposed to a new curriculum year to year and are therefore expected to derive educational value from taking the course again (Education Code 51228.2)

(cf. 6181 - Alternative Schools/Programs of Choice)

(cf. 6184 - Continuation Education)

(cf. 6185 - Community Day School)

An exception to item #1 or #2 above may be made only if all of the following conditions are satisfied: (Education Code 51228.1, 51228.2)

1. The student, or the student's parent/guardian if he/she is younger than age 18 years, has consented in writing to the assignment.

2. A school official has determined that the student will benefit from being assigned to the course period.

3. The principal or assistant principal has stated in a written document maintained at the school that, for the relevant school year, no students are assigned to those classes unless the school has obtained the student's or parent/guardian's consent and determined that the student will benefit from the assignment.

In addition, under no circumstances shall a student be assigned to a course period without educational content or a course he/she has already satisfactorily completed because there are insufficient curricular course offerings for the student to take during the relevant period of the school day. (Education Code 51228.1, 51228.2)

The above limitations on class assignments shall not affect the authority of the Superintendent or designee to permit the enrollment of a student in a dual enrollment, independent study, evening high school program, or other class or course authorized by law. (Education Code 51228.1, 51228.2)

(cf. 6158 - Independent Study)

(cf. 6172.1 - Concurrent Enrollment in College Courses)

Any complaint that the district has not complied with the requirements in this section regarding assignments in grades 9-12 may be filed in accordance with the district's procedures in AR 1312.3 - Uniform Complaint Procedures. A complainant not satisfied with the district's decision may appeal the decision to the California Department of Education (CDE). If the district or the CDE finds merit in an appeal, the district shall provide a remedy to the affected student. (Education Code 51228.3; 5 CCR 4600-4687)
